Family Constellation Weekend

with Internationally Renowned Facilitator

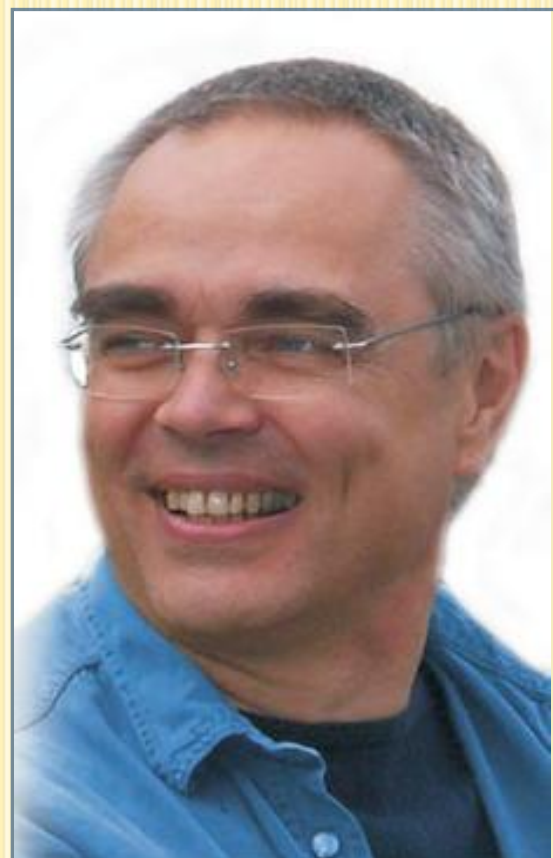

Claus Kostka

FAMILY CONSTELLATION WORK as developed by Bert Hellinger is a process that reveals and liberates us from old repetitive entanglements with our ancestors and families of origin. This facilitated group process can lead to profound changes in our lives in the realms of relationship, money, creativity, healing and spirituality. As the process unfolds we rediscover our inner radiance and clarity.

Many of us are seemingly chained to a destiny which is not really ours and which prevents us from finding and leading authentic existences. Many of us live this way without realizing it and without recognizing that we are repeating the fates of other family members.

"Over the course of the workshop, Kostka masterfully and tenderly illuminated the hidden dynamics of many inter-generational obstacles within my family in a manner which allowed me to affect immediate change in my life."

- Dan Nesbitt, Kostka workshop attendee

Claus Kostka received intensive training under the guidance of the late Dietrich Weth and has studied with Bert Hellinger, originator of the Family Constellation process. Kostka is a licensed psychotherapist with a practice spanning 23 years. He is also a certified somatic-body therapist, art therapist and family therapist. His work has a strong spiritual (non-sectarian) foundation. Claus Kostka currently resides in Germany with his wife and four children and travels internationally facilitating workshops regularly sold out in Canada, U.S., and Germany. It is rare that one has the opportunity to work with a teacher of Kostka's caliber and gifts as a facilitator.

Kostka's work heals inter-generational suffering. It enlivens us to our sense of purpose, our deepest selves, and our relationships.
